4. *Acropora cervicornis*. Status: *Critically Endangered* (CR).

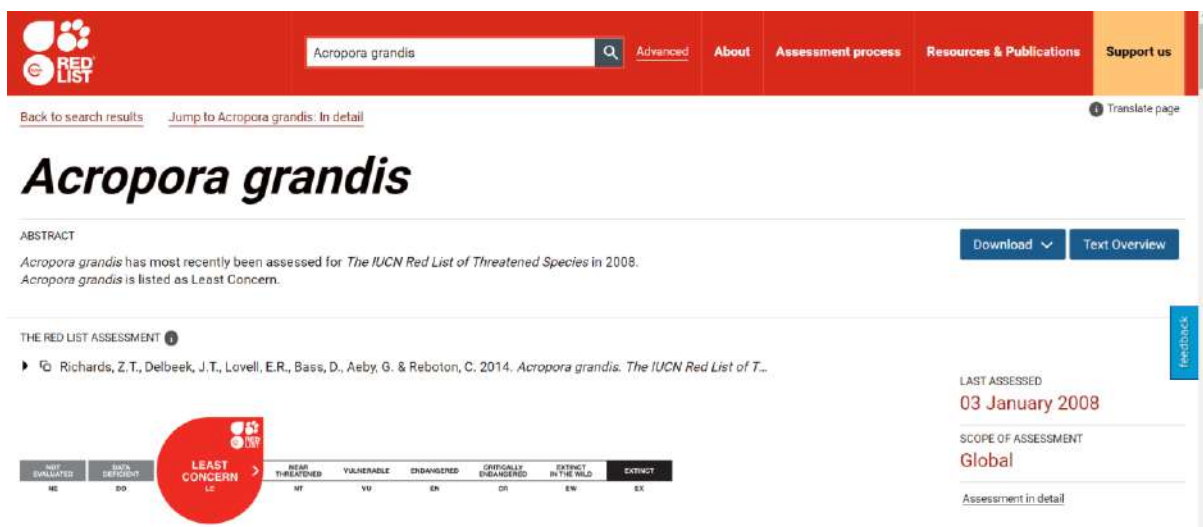

The screenshot shows the IUCN Red List entry for *Acropora cervicornis*. The page features a header with the IUCN Red List logo and navigation links. A search bar contains the species name. Below the header, there is a section for the species name and a large image of the coral. The status is indicated as 'CRITICALLY ENDANGERED' with a red circle. The abstract mentions the species was assessed for the IUCN Red List of Threatened Species in 2008. The 'THE RED LIST ASSESSMENT' section lists the assessment by Aronson, R., Bruckner, A., Moore, J., Precht, B. & E. Weil, 2008. The 'LAST ASSESSED' date is 01 January 2008, and the 'SCOPE OF ASSESSMENT' is Global. A feedback button is visible on the right.

5. *Porites antennata*. Status: - .

The screenshot shows the IUCN Red List search results for *Porites antennata*. The page features a header with the IUCN Red List logo and navigation links. A search bar contains the species name. Below the header, there is a section for the search results, showing 'RESULTS (0)'. The 'Geographical Scope' is set to 'Global' and the 'Include' filter is set to 'Species'. The 'SEARCH FILTERS' section on the left lists various filters like Taxonomy, Red List Category, Land Regions, Country Legends, Marine Regions, Threats, and Habitats. A feedback button is visible on the right.

6. *Acropora grandis*. Status: *Least Concern* (LC)

The screenshot shows the IUCN Red List entry for *Acropora grandis*. The page features a header with the IUCN Red List logo and navigation links. A search bar contains the species name. Below the header, there is a section for the species name and a large image of the coral. The status is indicated as 'LEAST CONCERN' with a red circle. The abstract mentions the species was assessed for the IUCN Red List of Threatened Species in 2008. The 'THE RED LIST ASSESSMENT' section lists the assessment by Richards, Z.T., Delbeek, J.T., Lovell, E.R., Bass, D., Aeby, G. & Reboton, C., 2014. The 'LAST ASSESSED' date is 03 January 2008, and the 'SCOPE OF ASSESSMENT' is Global. A feedback button is visible on the right.

7. *Euphyllia ancora*. Status: *Vulnerable* (VU).
